## HITS G. O. P. FOR FANNING BLAZE

Wilson Says Criticism Has Endangered Nation's Safety.

(By the International News Service.) Shadow Lawn, N. J., Nov. 4.—President Wilson in his closing speech of the campaign here this afternoon said there was a time when the Republicans controlled the credit of the country, but that now they only controlled the betting. The only reply to the criticism of his foreign policies was this:

"It seems to me that men calling themselves statesmen would spread tinder in this country when sparks without number are blowing over from the terrible conflagration abroad. They have sought to make party capital out of things which if not settled wisely might bring this country into the world conflict which is devastating Europe."

Mr. Wilson made a direct appeal for votes with this argument that the country was never before so prosperous. He said:

"With this outlook it is worth while to stop and think of party advantage? Is it worth while stopping to think how we have voted in the past?"

In beginning Mr. Wilson delivered a broadside against the campaign of the Republicans on the State ticket in New Jersey. He said the Republicans were trying to re-establish invisible government in the State, adding:

"And after all, the thing that is being attempted in New Jersey is only a part of what is being attempted in the United States with even more transparency of purpose."

Gov. Fielder introduced Mr. Wilson as "the man of the hour."

The President said in part:

**Hits Protective Tariff.**

"We have heard a great deal of talk in condemnation of invisible government. Invisible government never existed in more hateful forms than it has existed in past years in this State of New Jersey, and that invisible government never had more successful places of concealment than it had in such localities as Atlantic City, from which the candidate for governor on the Republican side has been chosen, and it never received more successful and persistent defense than it has received from the newspapers which he owns and controls."

"After searching in vain for an issue the Republicans came down once more to the only thing they have in recent years ever known how to talk about, and that was the protective tariff."

"They know perfectly well that all the pretenses about the protective tariff have been torn away not by the oratory of Democratic speakers, but by the patent demonstration of fact."

"They know that the working men of this country may have been deceived for a little while, but they have never deceived all the time. They know just as well as we know that the industries in which the highest protective was given protected the lowest wages and they know that the highest wages were protected in the least protected industries. That is a matter of record."

## GIRL LEAPS INTO MUD, THINKING IT'S WATER

Miss Maude Snapp Rescued from Boggy Anacostia Flats.

Miss Maude Snapp, 29 years old, of Anacostia, Va., residing at 204 E. street northeast, was rescued from several feet of mud in the Anacostia flats yesterday afternoon by A. E. Dyer, Charles B. Blanford and Policemen Swann and Lamb.

The young woman jumped from the south end of the Anacostia Bridge, where she thought there was water and when she was struggling in soft, slimy mud up to her neck. She had been told by a friend at the Casualty Hospital that she was employed at the Sharon Dairy. She said she had become dependent.

Miss Snapp's condition early this morning was reported to be favorable. Dyer, an autoist, was passing over the bridge when he heard the girl's screams. He speeded to the Eleventh precinct police station. The two policemen waded into the mud and dragged the girl out. She was then sent to the hospital.

Y., Nov. 4.—Richard Murphy, of Albany, was burned to death today, and Charles Holt was so badly burned that it is feared he cannot recover when a can of kerosene oil, which the men were carrying, took fire from a lantern which the men carried. ## M'CORMICK SURE

Claims 364 Electoral Votes for Wilson.

(By the International News Service.) New York, Nov. 4.—Vance C. McCormick, chairman of the Democratic National Committee, tonight issued his first formal and final estimate on the national election. It follows:

Woodrow Wilson will be re-elected President next Tuesday by a popular plurality and a majority in the electoral college.

The votes of Democrats, Progressives, Independents and Republicans in countless thousands will contribute. These same elements will elect a sympathetic Senate and House of Representatives to cooperate with the President.

President Wilson will have not fewer than 364 votes in the electoral college with the possibility that this number may be increased to 416 or even swelled to 468.

Thirty States with a total of 364 electoral votes properly belong in the Democratic column as follows:

Alabama, Arizona, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Maryland, Mississippi, Missouri, Montana, Nebraska, Nevada, New Jersey, New York, North Carolina, Ohio, Oklahoma, South Carolina, Tennessee, Texas, Virginia, Washington, West Virginia, and Wisconsin.

Included among "the close States and classified as 'probably Democratic'" are nine, with fifty-two votes in the electoral college, as follows:

California, Idaho, Kansas, New Mexico, Oregon, South Dakota, North Dakota, Utah, and Wyoming.

The "doubtful States" are three in number, with forty-five electoral votes, as follows: Michigan, Minnesota and Massachusetts.

SAYS WIFE FOUND HIM TOO "SKINNY" TO LOVE

Pastor Declares She Longed for Man Who Was Fat and Plump.

Special to The Washington Herald. Trenton, N. J., Nov. 4.—His wife regretted that she had never married a fat man, and often berated him for being "skinny" and bony, according to the Rev. John F. Triplett, of Woodbury, N. J., who sobbed and cried on the stand as he told the tale of his married sorrow.

"Oh," she would say, according to the testimony given by the minister in his action for divorce here, "why did I ever marry a skinny, bony man like you when I might have married one who was fat and plump?"

The name of a New York broker was given at that of the co-respondent.

The husband also alleged that Mrs. Triplett was found by her brother, Hampden S. Triplett, a New York lawyer, and two "observers" in a room in a hotel in New Haven, Conn., on May 15, 1915, with a New York man.

"She looked at him with dreamy eyes and sighed," testified the minister in his description of a meeting between his wife and the broker.

The minister said his wife once accused him of infidelity. This was after he had opened a registered mail package and found a spoon, a gift from a man.

"Well, Edwin, you can't fool me," the wife said, according to the witness. "You haven't been doing church work while gadding around with those Woodbury women. Now, Edwin, be reasonable and let me get a divorce and you may marry a blonde."

## GIRLS WORE GUARD UNIFORM.

Elizabeth, N. J., Nov. 4.—Because of the appearance of girls wearing National Guard uniforms in the Halloween celebration in Broad street Tuesday night, Cent. O. Warren, of Company I, 1st Cavalry, ordered the girls to be fined.

"It is a disgrace," said the commander of the company, "to see girls in uniform. I shall ask that they be fined and punished."

The girls were fined \$1.00 each.

## ITALIANS PRESS NEARER TRIESTE

Advance Over Wide Area in New Offensive.

(By the International News Service.) London, Nov. 4.—The Italians are slowly but surely pushing their lines nearer to Trieste. With fine weather favoring their offensive operations, their advance yesterday and today was extended over a wider area and the drive is being prosecuted with steadily increasing violence and growing losses to the Austro-Hungarian.

The Austrians lost 30,000 men during the first two days of the new Italian offensive, according to wireless reports from Rome. Of these, in round figures, 10,000 were killed, twice that number wounded, and the remainder captured.

Gen. Bordevitch, of the Austrian command, after having been forced to withdraw three divisions, has asked for reinforcements, according to these dispatches.

The Italians yesterday pressed forward in the direction of the Wippach Valley, advancing more than a kilometer, taking 533 prisoners. They also have practically invested Castagnievizza on the Carso.

Today's official statement from Rome says:

"In the Travinola-Avizio Valley the Italian infantry carried by assault the observatory on the southern slopes of Cima Boecia, a strong position about 100 meters from the summit."

"Our troops were able to consolidate the position despite counter attacks and violent artillery fire."

"East of Gorizia the Austrians brought into action new batteries of artillery of all calibers and maintained a constant barrage fire which we effectively answered."

## BELLIGERENT NATIONS IN SHELL-MAKING RACE

World War to Be Fought This Winter Chiefly in Munitions Plants.

(By the International News Service.) Paris, Nov. 4.—The war's final phase, inaugurated this week, is in the form of the most dramatic armament race the world has ever seen. Gen. von Stein has announced that Germany, surprised on the Somme by the entente allies' superior output, began at once to increase hugely her supplies of guns and shells.

"Every parcel of the country's energy must be devoted to the production of munitions," said Marshal von Hindenburg, commander-in-chief.

"I've come straight from the Somme," said Gen. von Stein. "We must do everything in our power to surpass the enemy's gun shell output. I'm going to apply myself to this task."

Last March the allies began their greatest munitions effort, and this month they are taking up Germany's workshop challenge. So that the world war in this coming winter will be fought principally in European munitions plants. Victory next spring will go to the side able to project the largest and deadliest shells.

MENOCAL ASKS PROTECTION.

Havana, Nov. 4.—Many Spanish land owners today asked President Menocal to act impartially in recounting the ballots of the recent Presidential election. President Menocal replied:

"If the Liberal party won the elections they will not be cheated of the victory, but at the same time, if the ballots show the Conservatives won, no human power will deprive them of the fruit of legitimate triumph, even if I am forced to go to the limit to enforce law and order."

The commissioners then addressed a cablegram to Minister Gonzalez in Washington, asking for protection. This action has enraged Cubans.

OTTAWA, Ont., Nov. 3.—The farewell gift of the women of Canada to the Duchess of Connaught, amounting to \$2,575, has been cabled to London. The gift will be applied to the Duchess of Connaught's prisoners of war fund, in compliance with her request.

Germans Recapture More Russian Positions on Narayuvka.

(By the International News Service.) London, Nov. 4.—A terrific battle is raging between the Russian and German forces on the Galician front. Following their recapture of the offensive, the Germans have recaptured more Russian positions on the Narayuvka, thus relieving pressure on Halicz, sometimes called the key to Lemberg.

## MRS. W. B. WILSON, III, SUFFERS THIRD STROKE

Secretary of Labor Recalled from New York Campaign Tour.

Mrs. Agnes Williamson Wilson, wife of Secretary of Labor W. B. Wilson, who has been ill several weeks, suffered a third paralytic stroke several days ago, and her condition became so serious last night that Secretary Wilson was summoned from New York State, where he has been campaigning.

Mrs. Wilson has been an invalid for a number of years. About two weeks ago she became seriously ill and steadily has grown worse since that time.

Last night Mrs. Wilson's condition had greatly improved and at a late hour she was resting comfortably. It was announced at the Wilson residence, Dr. William P. Reeves, the attending physician, pronounced Mrs. Wilson temporarily out of serious danger.

Mrs. Wilson is the mother of nine children, Adam, Hugh, and Thomas, all of Bloomsburg, Pa., and William, Joseph, Ames Hart, Jessie and Mary, who live in the Wilson home, 186 Kalorama road.

A. C. mass meeting last Friday night.

In an editorial the Daily maintains that it was no pink tea affair, and that since the song was a mere expression of enthusiasm and "pep" it was in place. Miss Vera Brown, a Detroit co-ed, and other girls took the matter as a huge joke.

"Why, it's foolish, that's all," said Miss Brown. "It's only a manifestation of 'pep' and it certainly is not out of order. The girls take it that way."

And so the matter stands.

U-BOAT FEARS! NONE AT ALL

New York, Nov. 4.—All her lights blazing in the dark, like a floating danger signal, the Star Spangled Banner painted on her sides, the American liner Finland came into port today, unconcerned of U-boats.

A curious contrast with the American liner was the White Star vessel Baltic. When far out at sea the British liner turned far to the south out of her course, shrouded her lights at night, and took all possible precautionary measures against U-boat attack. Each ship brought between 200 and 250 passengers.

"Til double it again," cried the man from Arizona.

"You're on," returned Rothstein.

Thus the final bet stood \$3,000 to \$7,200.

## GET U-BOAT DATA

U. S. Officials Receive Rowanmore and Marina Facts.

The State Department has received by cable from the American Embassy in London summaries of the affidavits made by American survivors of the British steamers Rowanmore and Marina.

From the information at hand it is believed that there no longer is any possibility of a serious controversy over the Rowanmore. That vessel admittedly attempted to escape when it was sunk.

It is thought that the case of the Marina in whose destruction, supposedly by a German submarine, six Americans lost their lives, will center in the determination of the character of armed vessels.

Before that question shall arise, however, the State Department must await the arrival by mail of the affidavits which alone constitute admissible evidence. It has not yet been established beyond doubt whether the Marina was sunk by a submarine or a mine.

As concerns the position this government will take in case it is established that the Marina was torpedoed, there is much doubt. The United States had upheld the right of belligerent merchant vessels to carry defensive armament, but all nations do not accept the American doctrine as regards neutral obligations relating to such ships.

No nation during the present war has defended more resolutely neutral rights than the United States. It has insisted that neutral vessels to enter her ports, holding that she is "obliged to place such vessels in the category of ships that are put on the same footing as warships."

Second U-Liner Near U. S. Shores, Is Report

Merchant Submarine Declared to Be Heading for American Port.

By DAMON RUNYON. (International News Service.) New London, Conn., Nov. 4.—While warships of the allies are whipping the seas off Nantucket in search of the German submarine U-57, and American underwater fighters are patrolling the coast line to preserve neutrality, it is reported another foreign submarine packet is heading for an American port.

The report which developed today has it that the presence of the U-57 off Nantucket is merely a cover for the movement of the second diving freight carrier.

The rumor declares the merchantman is making for Baltimore or Boston and that it is probably the Bremen, the famous mystery ship supposed to have been lost.

Capt. Paul Koehnig, of the submarine Teuthidion, in a recent interview, declared in his general interview a few days ago that there were only two German underwater freight carriers in existence, his boat and the Bremen. He said the midget America did not exist.

Furthermore, he said the Bremen had departed from Bremerhaven for these shores some time ago and that was the last anyone heard of it. It was equipped with supplies for sixty days.

PASTOR IN SMOKE PERIL.

New York, Nov. 4.—In an effort to save altar fixtures threatened by flames, Rev. Allen L. Benner, of St. John's English, Evangelical Lutheran Church at Richmond Hill, Queens, endangered his life yesterday afternoon. He was helped out, half conscious, by firemen.

The church, built eight years ago at a cost of \$25,000, was badly damaged by flames and water. The firemen, in their efforts to reach the flames, smashed through a \$3,000 memorial window. Dr. Benner discovered the fire while boys and girls were in the Sunday school room. He led them out, then went back for altar fixtures and was almost overcome by smoke.
